SUMMARY

Senior Product Manager & ex-founder with 6 years of experience building and scaling million-dollar products across B2B and B2C. Skilled in 0-to-1 development and driving growth through strong product delivery and product-led practices, I've launched B2C products used by over 13 million people and B2B AI-powered platforms serving tens of thousands of businesses. With a background spanning AI-driven product development, Computer Science, Design, and Business, I excel at turning complex product problems into clear strategies, focused roadmaps, and high-impact shipped products. Specializing in AI product development, product discovery, operations, and growth, I build products that delight users, strengthen core business metrics, and scale efficiently. Bilingual in Arabic and English, enabling seamless collaboration across cross-functional and leadership teams.

PROFESSIONAL EXPERIENCE

LUMOFY

Lead Product Manager

Riyadh, SA

Aug 2024 - Present

AI-powered talent development SaaS platform valued at \$40M and used by 500+ enterprises across MENA. Led five core product lines end-to-end and headed the product department, owning product strategy, delivery, and execution across all major releases.

- Launched Performance Management 2.0, turning fragmented HR processes (goals, reviews, competencies, 9-box) into a cohesive system that unlocked \$600K in new Tier-1 revenue and drove rapid adoption across 50+ enterprises.
- Launched Lumofy Mobile, achieving 80% enterprise adoption, +25% assessment completions, and 3x DAU across L&D programs.
- Led an extensive discovery program with Tier-1 enterprises, conducting 60+ interviews with CHROs, HR Directors, and L&D Managers; insights shaped the Use Cases system and the 12-month roadmap.
- Built Lumofy's Product Operating Model from scratch (roadmap governance, OKRs, growth dashboards, continuous discovery rituals), reducing time-to-market by 30% and unifying direction across 30+ cross-functional stakeholders.

MRSOOL

Senior Product Manager (Contract)

Riyadh, SA

Nov 2023 - Aug 2024

Pre-IPO leading MENA super app and on-demand delivery platform, processing \$2B+ annually and serving 14M+ users. Owned B2B products and led profitability-driving features to enhance revenue streams.

- Led the launch of the Mrsool Wallet across 14M users, converting dormant coupon balances into usable credit and reducing outstanding marketing liability by ~10% in the first quarter.
- Partnered with the Partnerships team and 4 engineers to integrate Checkout & Fawry as fallback payment gateways, reducing payment-related failed orders by ~5%.
- Built the debt-reduction strategy and KPIs, then launched the Advance Payment System for high-risk buyers, cutting buyer debt by ~10% month-over-month.
- Mapped the end-to-end payment flow with Finance and resolved legacy issues in the coupon payout system, resulting in ~\$133K in monthly savings.

QAWAFEL

Product Manager

Riyadh, SA

May 2022 - Nov 2023

- Led 2 product designers and 9 engineers to build a rules-based pricing engine that reshaped vendor commercial strategy, introducing segment-based pricing, reducing manual pricing effort, and driving a 5% lift in average revenue per vendor among adopters.
- Led the integration with Al Rajhi Bank to launch virtual IBAN payments for vendors, enabling automated settlement workflows and capturing 20% of all platform transactions in the first quarter.

TAKER

Product Manager

Riyadh, SA

Aug 2021 - May 2022

- Owned the vision, strategy, roadmap, and KPIs for Taker's Marketing Suite, launching segmentation and automation features that increased marketing-driven GMV contribution from 12% to 18% across high-volume restaurant clients.
- Led a cross-functional team of 6 engineers + 4 CSMs to redesign the campaign builder, cutting setup time from ~40 minutes to <10 minutes and increasing first-month activation by 10%.

ME.REKA

Product Manager

Kuala Lumpur, MY

Jun 2020 - Aug 2021

- Defined the product vision and end-to-end workflow for Me.reka's enterprise Talent Development & Upskilling platform, shaping how 100+ Malaysian HR teams design learning programs, measure skill growth, and manage workforce capability.
- Designed and shipped the Learning Path Builder, consolidating seven siloed workflows into a single experience and reducing program setup time for L&D teams by 35%.

MANASSAT

Co-founder & Product Lead

Tripoli, LY

May 2017 - May 2019

- Co-founded and shipped three digital platforms (Dawwarat, Eventat, Khedmt), reaching tens of thousands of users and generating \$100K+ revenue before exit.
